Mrs. Shirlene Smith
Eckhart Public Library
Auburn, Indiana 46706

Dear Mrs. Smith:

This letter is one I have needed to write to you long before this, but summers here are very hectic, keeping up with the activities of my four children. I am enclosing the first section of the index of the Courier. There are spots which I am sure in looking at them need proofing, but without the film staying here longer than would have been reasonable, I could not check the printout against the newspaper. In spite of its shortcomings, I hope it will be of some use to you.

Regretfully, I must put this project on hold for now. The microfilm reader which I had use of in my home, was taken away due to a change in librarians at the facility from which I had borrowed it. Therefore, I have no real way to continue this project at this time. I did learn a lot from the experience thus far. I entered the project a little naively and quickly found out that to do what I as a genealogist would find useful as far as indexing the newspapers was a much larger project than anticipated. With the ways the old papers were set up, it would not have been bad to just index the marriage and obituaries, but in reading the papers, more such information was found in the local columns and news articles and so these too were indexed. It took more time than I thought it would and then with the loss of the reader, became impossible.

I thank you for your trust in loaning these films, and if I can obtain another reader I would still like to pursue this project, one film at a time. I will contact you again if I solve my reader problem. Again, forgive the errors that may exist in the printout.

Sincerely,

Lynne A Dalby

Lynne A. Dalby
